Dr. Henry Rowen
Room 7E62
Central Intelligence Agency
Langley, Virginia 20505

Dear Dr. Rowen:

Thank you for agreeing to read and comment upon our manuscript, "Living With Nuclear Weapons." The manuscript was sent under separate cover today. It is now in its penultimate draft form (with the exception of chapter eight) and the group will be going over each chapter before February 1st to reduce any redundancy, resolve any inconsistencies and make final additions. Your overall comments on the manuscript will be greatly appreciated; your opinions on whether we have been comprehensive and fair in our presentation of alternative views would be especially helpful.

Written comments can be sent to me at the CFIA. I can also be reached by telephone [redacted] Could you note whethSTAT
you would like to have your contribution acknowledged in the preface?
